Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 1 is directed to a "portable locator". Dependent claims must further limit the claimed "portable locator". The recitation of "an assembly apparatus" in claim 14 is inconsistent with the preamble of claim 1. Claim 14 is indeterminate of scope.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Burcaw.

Burcaw shows a portable locator having a stop 32, a securing means 20, and a holding member 46.

Claims 4-13 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15-16 are allowed.
